

Microsoft SQL Server Management Studio interface showing a query execution. The query is:

```

SELECT P.ProductID, P.ProductName, P.Color
FROM Product P
WHERE P.ProductID = 105
ORDER BY P.Color ASC

```

The results pane shows the following data:

ProductID	ProductName	Color
105	AdventureworksLT.SalesLT.Product P	Red

The Properties pane on the right shows connection details for 'CYPRESS.csil.fdu.ca'.
